Thanks Linda, good catches. It helps to have another set of eyes!

I included you on the abstract with the thought that I might discuss some of the exposure calculations with the DSF, but I didn't really have room to discuss on the poster, so I left it out. I can take your name out if you are more comfortable with that. It's not really a big deal, but I do consider you an important part of the BaP team!

-K

Kathleen – I have no substantive comments...just a couple of little editorial notes. Nice job! I really don't deserve to be listed as an author. Linda

Subject: BaP-Draft SOT poster

Hi poster coauthors, attached is my draft SOT poster on the BaP proposed dermal slope factor. If you could take a quick look at it and get me any comments/edits within the next day or so, that would be much appreciated. I need to submit it for management clearance in the next couple days.

(I'm technically on annual leave, but I will try to check my email sporadically.)

Thanks!
Kathleen
